FOREWORD
PRESIDENT

The Psalmist David in Psalms 33v12 (NIV) says “Blessed is the nation whose God is the Lord, the people he chose for his inheritance.” As a nation, we must use Christ-centred ideals to steer the future as we stand at a crossroads. The fundamental tenet of LOJ, the Holy Bible, served as the foundation for this manifesto. The nation’s health and social status have deteriorated to the point where morally upright men, women, and young people must speak out against social injustices and the mistreatment of its people. The benefits of our hard-won democracy have not been experienced by our citizens. As a person and a leader who fears God, I was unable to disregard the greatest mandate we have to guide and assist our people. For the majority of the native people of this country, the idea of every South African having a roof over their heads, leading fulfilling lives, and living in a thriving country is still just a pipe dream.

Corruption in our country has eroded social trust, derailed economic growth, destroyed the fibre of our society and weakened the rule of law. Many of our young people are sitting at home with prodigious qualifications due to the high levels of unemployment. Patients are dying in hospitals due to lack of medical doctors, yet the state fails to employ countless of qualified medical doctors due to corruption of our leaders. The Law, Order, and Justice (LOJ) Party was founded with the goal of restoring the pride and reputation of the South African child.

For the majority of South Africans, the idea of democracy since 1994 has only brought disgrace, anguish, and suffering. As LOJ, we would like to emphasise that South Africans own South Africa. South Africans will be given preference in all state-provided services. South Africans are now fighting for access to healthcare, education, and other amenities because foreigners have taken up our land, jobs, state-provided homes and other benefits meant for South Africans.

Numerous social evils and crime including drug cartels, prostitution, illicit mining, human trafficking, hijacked buildings, corruption, and many more, have been caused by a lack of law enforcement. Due to open borders and unchecked immigration, our nation has witnessed a sharp rise in rape, murder, and the trafficking of women and children. In order to lessen the impact of these horrible crimes, LOJ will lead South Africans in deciding whether to reinstate the death penalty. When our nation is being destroyed and its citizens are being severely abused by those responsible, we cannot stand by and watch.

An essential component of the South African economy are the informal businesses. The influx of undocumented and illegal foreigners has significantly impacted the local economy at the expense of the locals. As LOJ, we will see to it that the legitimate South African citizens regain control of the local economy. Foreign nationals are not permitted to own or operate businesses such as hair salons, spaza stores, training facilities, petrol attendants, the security industry, the hospitality industry, trucking industry, etc. Foreign nationals are not permitted to work in any non-scarce or crucial jobs that South Africans are capable of performing.

“
LOJ is here to provide new hope and restore the dignity and pride of all South Africans.
”

King Solomon in Proverbs 28v28 and Proverbs 29v2 says that “When the wicked rise to power, people go into hiding; but when the wicked perish, the righteous increase.” “When the righteous increase, the people rejoice, but when the wicked rule, the people groan.” Let us stop praying for the wicked leaders to change and pray for the righteous leaders to be in power. We therefore appeal to all South African citizens to vote wisely and Vote LOJ.
